**Energy Efficient
Electric Water
Heater Incentive
Program**

A new energy-efficient electric water heater provides more than hot water; it can give you comfort, safety, peace of mind, and a \$60 credit on your LEC electric bill. Here's how:

- Purchase a new energy-efficient water heater and install it in our service area. Water heaters of 60 gallons or less must have an Energy Factor of .93 or higher, tanks over 60 gallons must have an Energy Factor of .91 or higher in order to qualify. Ask your retailer for a qualifying model, or give us a call and we'll verify if it qualifies.
- Complete this form and return to LEC along with a sales receipt that lists date of purchase, manufacturer and model number within 6 months of purchase.

Water Heater Brand Name: _____ **Size (Gallons)**_____

Model Number: _____

Number of Water Heaters: _____ x \$60.00 = \$ _____
Incentive Amount

Name, Address & Phone Where Installed

Name: _____ **Phone:** _____

Address: _____

Apply the Incentive to this Account:	
Member Name: _____	Account Number: _____

I certify that this water heater was purchased for installation at the above address. I will allow a representative of LEC to verify installation of the water heater. I understand it is my responsibility to install the water heater to meet all applicable codes and that the Cooperative is free from any liability arising from the installation or operation of this water heater.
