

Attention Manufactured Homeowners with Electric Forced Air Furnaces!

Duct Sealing Program

- **Save Energy & Money**
Duct sealing can save you up to 20% of the electric heating portion of your bill
- **Have a More Comfortable Home**
Get more warm air to those back bedrooms.
- **The Rebate may Cover the Cost**
Get a \$400 rebate which in many cases is the amount the contractor charges so the service could be totally free.

Why should I have my heating ducts sealed?

According to the U.S. Department of Energy, homes with un-insulated leaky ducts can lose up to 60% of heated air before it even reaches the registers. Our no/low cost PTCS duct sealing program seals those leaks, increases the efficiency of your heating system, reduces heating costs as much as 20%, and conserves resources.

Do I qualify for a rebate?

Yes, if you:

1. Have a manufactured home with an electric furnace or heat pump.*
2. Have your ductwork in an unconditioned space.
3. Use an installer from our approved installer list.

* Site built homes qualify if built on an unconditioned crawlspace.

A qualifying Home CANNOT:

1. Be new construction
2. Have a propane, wood or oil furnace.
3. Have ductwork located in a conditioned crawlspace or basement.
